The credit broking services we provide

We provide either comparable details of firms most appropriate to your finance requirements, or more general information relating to finance products.

We act on a non-advised basis. This means that we will not make a personal recommendation or assess whether a specific product is suitable for you.

To help us assess your demands and needs, we may ask for information about your personal circumstances and objectives. It is important that you provide accurate and relevant information so that we can identify options that may meet your needs.

The finance products we use

As an FCA-regulated credit broker, we may introduce you to a range of finance providers who may be able to help you finance your vehicle and provide related optional products and services, such as service, maintenance and tyre packages.

We offer products from a carefully selected panel of finance providers. We will not refer you outside this panel without your consent. You can ask us for a list of the suppliers who provide our products and services. All products and services we offer are optional.

Our remuneration and commission disclosure

We are a commission and fee-based organisation. As a credit broker, we are not a lender and we are not an independent financial adviser. We do not act on a fiduciary or impartial basis; we offer products from a limited panel of finance providers. Our aim is to help you find an option that meets your needs.

We will receive a commission from the finance provider if you enter into an agreement with them because of our introduction. This commission may be a fixed fee, a fixed percentage of the amount funded, or a variable amount depending on the funder selected and the terms of the funding. The amount we receive will be explained clearly before you proceed with the finance agreement.

In some cases, lenders may pay us additional commission for meeting service or performance standards, business volumes or marketing support. This could create a potential conflict of interest however it does not affect the price or terms offered to you. We are committed to making recommendations based on your needs and circumstances and act in line with the FCA's Consumer Duty to ensure fair outcomes.

We do not operate a Discretionary Commission Arrangement (DCA). The commission will be included in, or affect, the cost of your finance agreement depending on the lender's pricing model.

After your vehicle leasing agreement is in place, we may tell you about optional extras such as third-party service, maintenance or tyre packages. These extras are separate from your leasing agreement and are optional. Choosing whether to take them will not affect your lease or its terms. If we arrange any of these optional extras for you, we will receive a fee or commission.

Your right to disclosure

Where commission is payable, the existence, nature and amount of commission will be disclosed before you enter into a finance agreement. You may request further information or clarification about our commission arrangements at any time. We will explain the information in a clear and understandable way and provide additional support where needed.

For further details, contact compliance@ukcarline.com, call us, or write to us.

The charge for our credit broking services

We charge a Processing Fee of £269.99 inclusive of VAT for our services. No payment will be taken without your explicit consent.

The Processing Fee covers our work in arranging and managing your order, including:

- Structuring your offer and arranging the sale.
- Ordering the vehicle and liaising with finance companies and suppliers.
- Processing documentation and arranging delivery.
- Providing guidance and support during the order process and throughout the contract term.

The Processing Fee is payable by debit card, credit card via Stripe, or by BACS payment. It is taken once finance approval has been received and you have signed the relevant vehicle order documentation instructing us to place an order on your behalf.

Finance provider administration fees

Some finance providers may charge an administration fee to cover document or processing costs. This fee is set by the finance provider, not U.K. Carline Limited, and will be disclosed to you before your order is accepted. Administration fees are more commonly associated with purchase agreements than lease agreements.

Contract extensions, mileage amendments and optional extras

When your lease contract is nearing completion, you may be able to extend it or amend your mileage allowance, subject to finance company approval. U.K. Carline Limited does not charge an additional fee for arranging these services, although we will receive commission if you enter into a formal extension agreement. This option is not available with all finance companies. Contact inlife@ukcarline.com for more information.

We may let you know about optional extras, such as third-party service, maintenance and tyre packages. These extras are separate from your leasing agreement and are offered after your finance has been arranged. You do not have to take them and choosing whether (or not) to do so will not affect your lease or its terms in any way. If we arrange any of these optional extras for you, we will receive a fee or commission.
